Partnering with VARtek

Making IT work for your school

“Just make it work.” We hear this all the time. Schools want to trust that their technology will be there when they need it. VARtek has raised the level of confidence in IT for schools all over the country. Schools just like yours. Our approach to making IT work is rooted in four guiding principles:

IT Leadership: Clear, effective guidance of your technology environment based on decades of experience and industry best practices

Technology Implementation: IT support and project management to turn your technology vision into a reality

Technology Integration: Ongoing professional development and integration coaching to increase students' use of technology

Student Achievement: The technology and support students need to be next-generation learners

3 Ways to Partner

FULL IT OUTSOURCING

VARtek staffs your entire technology department and manages all daily operations and long-term IT strategy. **Ideal when** you need to improve outcomes and accountability or you need to lower IT expenses

STAFF AUGMENTATION

Fills gaps on your existing IT team with contractors who work under the direction of school-employed IT managers. **Ideal for** school start-up, technology deployments, targeted integration support

SPECIFIC SERVICES

Contract with VARtek for targeted expertise (such as an IT audit) or technology (such as remote network monitoring). **Ideal when** you have a strong internal IT team but need help with clearly defined projects that can exceed the skills of even the best technology staff

Full IT Outsourcing

Covering all bases

With VARtek's **full IT outsource solution**, for a fixed monthly fee, your school gets IT leadership to plan and execute your IT vision, a full team of on-site technicians to implement the latest technology and provide a guaranteed level of technical support, and professional development for teachers as they integrate new tools into their classrooms.

PEOPLE

- Full on-site technical team
- vCIO
- Senior-level strategic leadership
- Help desk
- Classroom technology coaches (former educators with strong desk-side support skills)

TECHNOLOGY

- Cloud backups and disaster recovery
- Remote monitoring and network management
- Online issue management software

SERVICES

- Contractual obligation for response times, service levels, and other outcomes
- Opportunity to transition existing staff to VARtek's team
- Annual asset refresh planning
- IT budgeting
- Performance and server uptime reporting (weekly, monthly, quarterly)

Staff Augmentation

Support you need, when you need it

With VARtek's **staff augmentation services**, your school can plug one or more individuals into your IT staff to fill specific, short- and long-term gaps in capacity or skill. The fee is related primarily to each technician's skill level and the number of hours worked. As with our full outsource solution, staff augmentation can shave benefits costs while increasing your access to trained, IT talent.

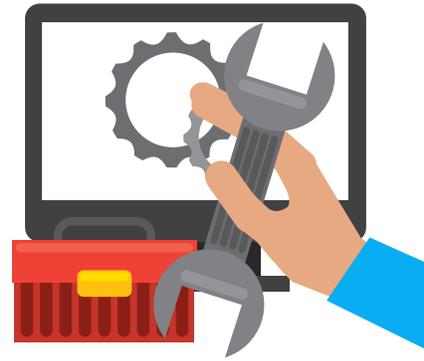

PEOPLE

- Desktop technicians
- System administrators/engineers
- Network administrators/engineers
- Technology directors/coordinators
- Project managers
- IT directors/managers
- Classroom Technology Coaches
- Google Apps for Education-certified technicians

Specific Services

Design your own support

With VARtek's **specific services**, you can select just the expertise and technologies you need to address projects or personnel requirements that are beyond the capacity or scope of your existing IT team. From assessments of the functionality and effectiveness of your entire IT program to certified project managers and Google experts, our menu of services and personnel has everything you need to create a customized IT solution.

SERVICES

- IT audit
- Strategic planning
- Asset refresh planning and inventory management
- IT budgeting
- Project planning and management
- Network, system administration
- Performance coaching for IT managers and staff
- Engineering
- Wireless analysis
- Cabling
